ALYSSON RAFAEL

PROFESSIONAL SUMMARY

Junior Fullstack Developer with experience in web application development, working with technologies such as React, Next.js, Node.js, and Express.
I aim to establish myself in the market through challenging projects, delivering robust, scalable, and well-structured solutions. I have a particular interest in building efficient systems on both the front-end and back-end, with a focus on quality and performance.

SKILLS

Front-end -
- React.Js
- Next.js
- Tailwind CSS

Back-end -
- Node.js
- Express
- Rest APIs
- Prisma ORM
- Docker

Mobile -
- React Native

Data Bases -
- PostgreSQL
- MySQL
- SQLite

Tools and Others -
- Git & GitHub
- Figma
- Python
- Excel

languages:
- English: basic - intermediate
- Portuguese- fluent - native

Education

Computer Science
Unifavip wyden
At night

Start: Jan/22   expected end: Dec/26

EXPERIENCES

Junior Fullstack Developer
EPTA Tecnologia
May/25 - Current

I work on the development and enhancement of web solutions, actively participating in production-level projects. I use technologies such as Next.js on the front-end and Node.js on the back-end, contributing with performance improvements, bug fixes, development of new features, and integration with APIs and databases. I am part of the technology team in a collaborative, agile environment with continuous delivery.

Teaching Assistant – Computer Networks Fundamentals
Unifavip wyden
FEB/25 - JUN/25

I worked as a teaching assistant, helping students understand both theoretical and practical concepts related to computer networks. I supported classroom activities, answered questions, and reinforced the content covered in lectures, fostering a supportive environment for learning and academic development. In addition, I assisted the course instructor with grading assignments and evaluating students.

Warehouse Supervisor
Luiz Felipe Lima Silva Comércio Varejista
Oct/22 - Feb/24

I worked in the production sector of a jeans fashion company, being responsible for inventory control and the creation of production spreadsheets. I identified bottlenecks caused by manual processes and proposed the digitalization of routines by developing automated spreadsheets and charts to track results, which optimized the production flow and reduced errors.

Voluntary
Unifavip LTD(Digital Transformation Laboratory)
Jun/23 - Dec/23

At the Digital Transformation Lab at Unifavip, I volunteered in the development of an application for scheduling university activities. I worked as part of a team to develop both the internal system logic and the user-facing interface.

Administrative Assistant
MODABANK REPRESENTACÕES COMERCIAIS LTDA
Jan/22 - Sep/22

At Modabank, a financial management company, I was responsible for updating spreadsheets and the financial system, analyzing and comparing results to report to the supervisor and client. I identified issues with data understanding and errors, and created more intuitive spreadsheets along with efficient strategies to organize and filter relevant information.
